"If Steve Jobs & Ferrari
teamed up to design
fitness equipment,
They couldn't do
better than the Q47E."

OCTANE FITNESS Q47E

If Steve Jobs and Ferrari teamed up to design fitness equipment, they couldn't do better than the Q47E. The sleek, intelligent machine analyzes your hip height and speed, then adjusts its motion to simulate the natural gait of running, jogging, or walking. It also features instant electronic stride adjustment, allowing you to press a button on the center console computer
